

*SPECIFICATION AMENDMENTS*

*At page 1, under the title, insert the following new paragraph:*

This application is the U.S. national phase of international patent application PCT/EP03/014364, filed on December 17, 2003, and claims priority to German patent application number 102 59 048.6, filed December 17, 2002, all of which are hereby incorporated by reference.

*Amendment to page 3, paragraph 1:*

This object is achieved by the semi-crystalline, melt processible, partially aromatic copolyamides according to claims 1 to 13, which can be used according to claim 14 for producing moulded parts by means of melt processing methods. This object preferably is achieved by the characterizing features of the present invention. Advantageous embodiments and further developments of the solution will be apparent from the description of the invention provided herein.

*Amendment to page 6, paragraph 1:*

The melting point of the copolyamides according to the invention is at most 335°C and, for the copolyamides in some embodiments according to the invention defined in claims 7, 8, 9 and 10, it is at least ~~at the~~ a temperature indicated there-of ~~of at least 255°C, at least 265°C, at least 270°C, or at least 290°C.~~
